SUMMARY

Operations-focused professional with a strong foundation in process optimization, performance management, and data-driven decision-making. Experienced in leading teams, managing fast-paced operations, and driving improvements in quality and efficiency. Skilled in analysing operational metrics using tools such as SQL, Tableau, and Excel to identify process gaps and implement scalable solutions.

SKILLS

Technical Project & Analytical Tools: Tableau, Power BI, SQL, Microsoft Excel, Python, C++, JIRA, Microsoft Office Suite, Microsoft PowerPoint, Google Sheets, Confluence, Microsoft Project, Asana / Trello, Lucidchart

Operations, Supply Chain & Project Management: Planning and progress reporting, Procurement and logistics planning, Project Technical Coordination, Supply Chain ERP, Demand Forecasting, Inventory Management, UAT Management, KPI Monitoring.

Management & Soft Skills: Stakeholder Communication, Cross-Team Collaboration, Problem-Solving & Root Cause Analysis, Decision-Making Using Data, Time & Priority Management, Leadership & Team Coordination, Client Handling & Expectation Management.

Certifications: Data Analytics with Tableau, Lean Six Sigma Green Belt, Google Introduction to GenAI

PROFESSIONAL EXPERIENCE

Teaching Assistant - Arizona State University | Tempe, AZ

Aug 2025 – May 2026

- Designed a grading program to solve evaluation inconsistencies across 137 project management and enterprise planning reports, using structured rubrics, **Lucidchart**, and **Trello**, which resulted in timely assessments and measurable student performance gains.
- Established a systematic review process to ensure consistent scoring of 178 student projects, using critical thinking frameworks and structured feedback protocols, which resulted in **on-time delivery** and stronger student outcomes across business planning output.

Assistant Manager - Reliance Jio | Mumbai, India

July 2023 – July 2024

- Built a centralized ticket workflow to solve SAP GRC resolution delays across 82+ enterprise clients, using **SQL**, **MS Excel**, and **JIRA** for prioritization and **team coordination**, which resulted in a 67% resolution rate and compliance rising to 87%.
- Initiated a process improvement project to eliminate manual bottlenecks in SAP CRM operations, using **Python**, **HTML**, and **CSS** to build and deploy an automated workflow, which resulted in faster turnaround times and reduced operational risk for the team.

Program Lead - IEEE Bombay Section | Mumbai, India

Sept 2022 – Dec 2022

- Managed the program lifecycle for IEEE TENSYP 2022 to coordinate a global technical symposium, using structured **scheduling**, **logistics**, and **stakeholder coordination** across 10+ evaluators, which resulted in seamless delivery for 32+ international participants.
- Built an inventory and logistics tracking system to close resource gaps during live event execution, using **project coordination tools** and **cross-team communication** protocols, which resulted in on-time delivery of all milestones and high participant satisfaction.

Project Assistant - Exposys Data Labs. | Bangalore, India

May 2022 – Aug 2022

- Coordinated end-to-end planning and delivery of a client-facing website within a 5-member team, using **Confluence** and **Microsoft Project** to track requirements, milestones, and risks, which resulted in an on-schedule product delivery presented to 4+ stakeholders.

PROJECTS

Strategic Analysis of ERP Industry – SAP, Oracle & Workday

Aug 2025 – Dec 2025

- Built a comparative analysis framework to solve the problem of evaluating ERP vendor competitiveness, using **Porter's Five Forces** and **VRIO**, which resulted in clear insights on how SAP, Oracle, and Workday control **40%+ of the market**.
- Produced an industry growth assessment to solve the problem of understanding AI-driven ERP trends, using **market research and segmentation analysis**, which resulted in a 40+ page report outlining opportunities in a \$64.8B → \$123.4B market.

Sales Performance Analysis – MegaMart

Jun 2025 – July 2025

- Designed an interactive dashboard to track and compare agent-wise sales over time, using **SQL** and **Excel** for data cleaning and **Tableau for visualization**, which resulted in a 72% target achievement and improved visibility into \$1.57M+ in sales.
- Developed dynamic filters and prior-month comparison tools to address gaps in growth analysis and category-wise performance monitoring, leveraging KPI indicators and time-series charts, which resulted in actionable insights for investor decision-making.

B2B Market Strategy Simulation – Markstrat

Aug 2024 – Jan 2025

- Structured a portfolio of 5 B2B products to address market demand fluctuations, utilizing **pricing optimization**, competitive positioning, and **distribution strategies**, which resulted in a 14% increase in market share and contributed to a 16% revenue growth.

COMMUNITIES AND LEADERSHIP

Volunteer, Women in TEM, Arizona State University

Aug 2024 - Present

- Attended and assisted in organizing events and initiatives, supporting program execution and participant engagement.

Publicity and Networking Lead, IEEE Bombay Section SAC

Jan 2022 – Dec 2024

- Served as a technical volunteer for IEEE Asia Pacific Region 10 Symposium (TENSYP 2022), assisting in technical operations.

EDUCATION

Arizona State University

Aug 2024 – May 2026

Master's in Science -- (Management of Technology - MSTech) (GPA 4.11/4.00)

Tempe, AZ

University of Mumbai

Aug 2019 – June 2023

Bachelor of Engineering -- (Electronics and Telecommunications) (GPA 3.72/4.00)

Mumbai, India
